

Attorney Docket No.
COE-563

PATENT APPLICATION
Ser. No. 10/713,793

In the Specification:

Page 1, line 7, amend the existing "Related Inventions," with:

This is a Continuation-in-Part of prior co-pending U. S. Patent Application Serial Number 10/318,214, *Systems, and Methods of Use, Employing Distorted Patterns to Ascertain the Shape of a Surface, for Road or Runway Profiling, or as Input to Control Pro-Active Suspension Systems*, by Cox et al., filed December 13, 2002, since abandoned, and incorporated herein by reference.
